

STATE PLANNING BOARD [787]

INDUSTRIAL RESOURCES, 1910#1940

1.2 cu. ft.

DESCRIPTION: The State Planning Board gathered studies of industrial resources, raw materials, employment, payroll, labor, manufacturing, economics, and transportation rates to supply both the private and public interests with information on possible sites for location of industry and for development programs to increase industry. Reports on the following subjects are included in this series: beet sugar industry, cheese making, tanning hides, salt production, wine production, honey production, commodities in general, cooperative marketing, cost of living and wage, economic activities and resources, income and debt, labor groups, livestock, payroll, commercial trade, land leases, real estate, trade restrictions, industrial movements, worker's compensation, railroad freight weights, and man hour reduction.

ARRANGEMENT: The series is arranged alphabetically by title of report.

RELATED RECORDS: AGRICULTURAL STUDIES, series 1165, has more information about Utah agriculture. Mining reports are in MINING STUDIES, series 1175. STATE GOVERNMENT STUDIES, series 22016, has reports concerning state expenditures. ECONOMIC STATISTICS, series 1176, has economic studies by county. Series 1177, TAX STUDIES contains detailed information on taxes and INDUSTRIAL TRENDS STUDIES, series 21987, has more information on commodities in Utah.

PROCESSING NOTE: This series was processed by M. Call in March 1999.
